In his latest book, *FORGIVEN SINNER: God's Last Savior*, LES JENSEN, author of the 2015 critically acclaimed *Citizen King*, challenges us to confront our role in the very essence of life ...
... the salvation of humanity!

Humanity has prayed for the end of suffering for generations, yet it still exists today. There must be something that is not quite right. With all the saviors of all the world's religions—having each come to earth and having each fulfilled their individual calling—why is it that there is still suffering in the world?

Is it that the saviors didn't teach us all the right messages? Is it that we, the followers, didn't actually learn the lessons? What is it going to take to actually end the suffering and bring us our salvation? If the saviors are here to save us, what then are the missing elements to actually being saved?

There must be a way to our salvation. There must be a way for our prayers to be answered. If God is holding the answers, where is our role in the salvation of humanity? What did the saviors know that perhaps we have missed? What is our own personal role in fulfilling the saviors' teachings?

What went wrong? What have the teachings of all of our religions neglected to reveal? Is there a path for the salvation of humanity? What is a savior's role in the salvation of humanity? There must be something deeper that has been overlooked. If the existing idea of what is supposed to happen has failed to restore peace on our planet, then what is the Divine idea of our own salvation?

If we continue to follow what hasn't worked, we will never have peace on Earth. This book takes a deeper look at the mechanics of our salvation ... what we have been told, and what is, perhaps, the Divine idea of the return to Heaven on Earth. It must take more than a single savior to heal humanity, or it would have happened by now.

In this exciting and challenging new book, Jensen takes a closer and compelling look at the role of the savior and how we, the seekers, can fulfill our part. There *is* a path to the salvation of humanity. There *is* a role for us to play out in this lifetime of ours. We *can* come to terms with our sins and actually fulfill the dream of our ancestors of bringing Heaven back to Earth. When we have truly learned the teachings of the saviors, we *will be* saved. *Forgiven Sinner* will help us to discover our vital role in it all!

LES JENSEN

Author, radio host, speaker, energy master and visionary, Les was born into a Mormon household in Brigham City, Utah, the last of seven children. This laissez faire situation allowed him significant freedom to explore his strong sense of independence and to indulge his curiosity about the world around him, how it worked, and the people within it. His technical skills eventually led to a very successful career in engineering in the broadcast industry, and it was here that he experienced a “spiritual awakening.” He hadn’t had a spiritual notion of himself before that, but decades of studying the nature of frequency, energy and very high levels of power in television had prepared him for working with the energy of human consciousness.

And then his life-path changed. Everything Les had learned about energy would later show up in many ways, including his writings. His language was that of karma, emotions, mental stigmas, energy bodies, and levels of consciousness (and the power behind them). Meanwhile, years before becoming an author, Les experienced this energy in the form of a life-changing moment when he “broke himself wide open.” He felt so much energy pouring out of his personal persona that he went inside his inner self and started cleaning up whatever he found that didn’t serve his well-being.

More or “less” naturally, such life-altering changes led to the creation of New Human Living in 2009, a global platform to assist humanity in discovering its own truth. Without any bias towards a religious group or existing establishment, Les kept the focus of all of his material on the personal empowerment of the individual, where the guidance of the best life path came from each individual’s *heart*. Based on the notion that the Kingdom of Heaven is within each one of us now and always, and by keeping the focus on the purity of the individual’s energy, Les’ material transcends the inherent cultural bias of those existing establishments’ beliefs.

His e-book, *Personal Power Fundamentals*, a review of the fundamental nature of our own personal power, including how to overcome one’s karmic propensities, appeared in 2013, followed by publication of *Citizen King: The New Age of Power* in 2015, a critically acclaimed exploration of how we can show up in an authentic and powerful way, fulfilling the vision of our heart and soul.

Les lives in Colorado, where he enjoys hiking, exploring the Rocky Mountains, and engaging others in passionate dialogue about the philosophy of our human nature. To learn more, visit his Websites at www.NewHumanLiving.com and www.LesJensen.com.
